## CAR PARK MANAGEMENT SYSTEM

LICENSE PLATE RECOGNITION

# SPEED

FAST AND EFFICIENT

# ACCURACY

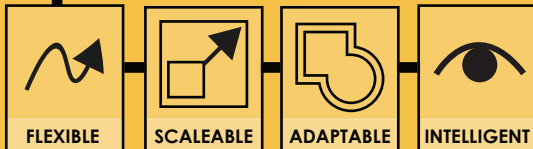

RELIABLE DATA OUTPUT

# CONVENIENCE

INTUITIVE AND STRESS-FREE

EyeGate delivered New Zealand first fully ticketless car park management solution using license plate recognition technology. The data driven solution efficiently tracks vehicle from entry, to payment, to exit and provides options and services not possible before.

- innovative software and patent pending hardware
- developed and designed in New Zealand
- tariff management system for different user categories and rates
- Integrated access control that can be remotely managed and supported
- suit stand alone owner operated car parks to multi car parks managed by car park operator
- ideal for indoor and outdoor car parks

## SPEED AND ACCURACY

- industry leading 99.8 % accuracy
- quick sub 4 sec entry and exit
- fast flow eliminates queues
- minimal human intervention

## CUSTOMER CENTRIC

- increase customer loyalty
- ease of payment eg mobile app
- Improved vehicle security
- Prepay and booking functionality

## DATA DRIVEN

- flexible pricing & payment options
- minimize bad debts
- Alerts of stolen/blaclisted vehicles
- nested parking and event parking
